

THE CITY OF PRAIRIE VILLAGE

STAR OF KANSAS

January 4, 2022

Johnson County Board of County Commissioners
111 S. Cherry Street
Suite 3000
Olathe, KS 66061

Dear Commissioners:

The current COVID situation is presenting challenges for the City of Prairie Village as we look for additional ways to keep our community safe and mitigate the spread of this disease. In response to the significant rise in cases in Johnson County, we request assistance from our County partners as we continue to navigate this pandemic.

The City of Prairie Village Governing Body would like more proactive efforts from the Board of County Commissioners to further mitigate the spread of COVID in our community. Meaningful, immediate, and impactful actions will move the needle in a positive direction. These actions include anything to slow the spread, increase public messaging, increase testing capabilities, and any other mitigation or prevention strategies.

We appreciate the efforts the Board of County Commissioners and Johnson County Health Department have made over the last two years. We are all feeling the fatigue from this pandemic and certainly acknowledge the many things that have been implemented towards controlling the spread of this disease. We believe additional resources towards mitigation or prevention efforts will have positive results for Johnson County.

On behalf of the Prairie Village Governing Body, I strongly encourage you take additional steps to keep our County safe and healthy.

Sincerely,

Eric Mikkelson
Mayor
