Sergeants-

With the signing of some recent Presidential Executive Orders, the Olathe Community may see an increased presence of Homeland Security Investigations (HSI). This change should have very little impact on how the Olathe Police Department continues to serve and protect our community while enforcing the law.

For clarification the Johnson County Sheriff's Office process has not changed. When individuals are arrested and transported to the Johnson County Adult Detention Center their immigration status is checked and JoCo SO notifies Homeland Security Investigations for potential enforcement. This process for HSI's Enforcement and Removal Operations (ERO) for in custody undocumented immigrants has not changed for us. On the rare chance you need to contact them, the ERO Kansas City Office phone number is: [REDACTED].

HSI has offered to respond to undocumented immigrants encountered roadside (traffic stops, investigations, enforcement operations, etc.). In an effort to continue to provide the most safe and efficient service to the entire Olathe Community this offer will only be utilized in highly extraordinary situations. During duty hours, the HSI Kansas City office line is: [REDACTED].

All after-hours reports can be directed to SECTOR (HSI's dispatch equivalent). They will patch you into the duty agent for each respective agency and can also answer any general questions you may have. SECTOR's number is: [REDACTED].

Please provide clarification and guidance to your teams on the minimal impact this change brings, but **do not** share the contact information for HSI as all contact should be handled by on-duty Sergeants. If there is a request for the Olathe PD to assist with immigration enforcement, please notify your Chain of Command immediately to receive approval from the Chief of Police prior to taking action.

In summary, keep doing what we have been doing.
